

TÜV Rheinland brings UK industrial services businesses together as TÜV Rheinland Solutions

Risktec Solutions, TÜV Rheinland Industrial Services and the industrial services operations of TÜV Rheinland UK will unite under one company from 1 September 2026.

United Kingdom, September 1st, 2026. TÜV Rheinland is bringing together Risktec Solutions Limited, TÜV Rheinland Industrial Services Limited and the industrial services operations of TÜV Rheinland UK under a single company, TÜV Rheinland Solutions Limited, effective 1 September 2026.

The move marks an important step in the development of TÜV Rheinland's UK business. By combining these operations under one organisation, the company is expanding its capabilities in risk, safety and engineering services and making it easier for clients to access a broader range of expertise. As part of the change, Risktec's international subsidiaries will also adopt the TÜV Rheinland Solutions name.

Broader capability for clients

TÜV Rheinland Solutions will bring together over 400 employees in the UK and provide services across risk and safety consultancy, inspection, asset integrity management, project and design services, training, and specialist resourcing. "This is an important milestone for our UK business," said Steven Roach, Co-Managing Director of TÜV Rheinland Solutions. "Bringing our teams together under TÜV Rheinland Solutions will allow us to offer clients broader capability while continuing to provide the high-quality support they know from our existing businesses."

Operating from 15 offices in the UK as well as multiple international locations, the combined business supports more than 300 clients in over 65 countries across sectors such as chemicals, clean energy, nuclear, oil and gas, transport and financial services. Its services cover hazard identification and modelling, risk assessment, safety analysis and justification, asset life extension, multidisciplinary engineering support from concept to operation, and technical training.

Within inspection services, TÜV Rheinland Solutions examines more than 10,000 items of client equipment each year. Its UKAS-accredited team provides pressure equipment inspections for operators and manufacturers across the UK, alongside

specialist inspection services for storage tanks and civil and structural assets. The company also uses digital tools, including its Smart RBI (Risk-Based Inspection) tool, to support technical experts in planning inspection, maintenance, repair and replacement activities.

A single organisation under one brand

“Operating under one TÜV Rheinland brand strengthens our capabilities and gives clients access to our combined expertise through a single organisation,” said Kevin Walls, Co-Managing Director of TÜV Rheinland Solutions. “It also provides a strong platform for continued growth, collaboration and innovation in the UK and internationally.”

The launch of TÜV Rheinland Solutions reflects TÜV Rheinland’s continued investment in its UK operations and its long-term commitment to clients, employees and partners.

About TÜV Rheinland Solutions

TÜV Rheinland Solutions brings together the industrial services businesses of TÜV Rheinland in the UK under one company. Built on the successful investments of TÜV Rheinland in Risktec, ABB Consulting, 2MC and Safetec, the business combines these capabilities within a single organisation and brand. With over 400 employees in the UK, TÜV Rheinland Solutions supports more than 300 clients in over 65 countries. Services include Risk & Safety Consultancy, Inspection Services, Asset Integrity Management, Project and Design Services, and Resourcing for customers in sectors such as chemicals, clean energy, nuclear, oil and gas, transport, and financial services. The Solutions Training team helps both organisations and individuals develop and maintain competence and skills, supporting over 1,000 learners annually across the UK and internationally.

About TÜV Rheinland

TÜV Rheinland is a leading provider of testing and inspection services worldwide. For over 150 years, the company has helped make the world a safer place. Today, more than 29,000 employees test, inspect and certify products, plants and processes, while also providing training for people in a wide range of professions. Operating from 500 locations in more than 50 countries, TÜV Rheinland helps safeguard key areas of business and everyday life. Headquartered in Cologne and generating annual revenue of close to €3 billion, the company plays a key role in quality assurance worldwide. TÜV Rheinland has been a member of the UN Global Compact since 2006, demonstrating its commitment to anti-corruption and sustainability. Website: www.tuv.com
